Gibtelecom

Managed IT services

Expert IT support without the overhead. Gibtelecom Managed IT Services provide a reliable and experienced IT function, covering support, maintenance, security and optimisation. Reduce operational risk, improve performance and ensure your systems are always aligned with your business needs.

FULLY MANAGED IT

Outsource IT operations to experienced specialists.

PROACTIVE MONITORING

Identify and resolve issues before they impact operations.

SECURE DATA PROTECTION

Safeguard business critical data across systems and platforms.

SCALABLE SUPPORT

IT services that grow with your organisation.

What's included

SERVICE	WHAT IT COVERS
Managed IT	End to end IT support including service desk, proactive monitoring, maintenance and strategic guidance.
Device management	Keeps laptops, desktops and mobile devices secure, up to date and performing at their best, with IT procurement and lifecycle support.
Office 365 Backup	Back up your Office 365 data in a secure, Gibraltar-based data centre for added peace of mind.
S3 Silo Storage	Easy to manage, secure storage for your data, compatible with the Amazon S3 standard.

Support is included in your monthly fee, with response times as little as 15 minutes. Remote and on-site support available.

Gibtelecom

The right solution for your business

There is no one-size-fits-all approach for IT. Choose **Standard** for everyday business needs, or **Enhanced** for larger environments and added security.

STANDARD

For everyday business needs.

ENHANCED

For larger environments and added security.

We can also assist with global IT procurement requirements and challenges through our extensive partner network.

Why choose Gibtelecom?

- **Dedicated IT team:** An extension of your business.
- **Expert support:** Always available without paying for callouts.
- **Proactive approach:** Issues resolved before disruption.
- **Local expertise:** Gibraltar based specialists.
- **Secure infrastructure:** Enterprise grade protection built in.
- **Strategic guidance:** Optimisation and review to adhere to best practices.

> "Managing IT internally can be complex and resource intensive. Our Managed IT Services are designed to remove that burden, giving businesses reliable, secure and scalable technology with the confidence that everything is taken care of."
>
